

Online Participation

We will do our best to include online participants as interactively as possible during the conference. Zoom will be used for the online participation. You will receive an invitation link to attend the conference. The link is personal and can only be used by one person.

There will be a person in the session who will be facilitating interactions between online and in person participants. Most sessions will also be livestreamed and recorded.

Important:

1. Make sure Zoom works on your computer and connect in good time before the session starts
2. Check that the settings for sound and microphone are correct
3. Always mute your microphone when not in use. The moderator will have the ability to mute all participants if needed
4. Open the Chat channel to read and write messages. In the plenary session questions will be asked in the Zoom Q&A.
5. It will also be possible to use the Raise hand function under Reactions.
6. Please make sure your name is shown correctly in the Participants list. You can change your name by pressing the "Participants"-title. This will open the list of participants. After that take your cursor on top of your own name and select first "More" and then press "Rename".

In case of problems:

- Check your settings for sound and microphone again
- Leave the meeting and re-connect
- If you have problems with an unstable connection try turning of your video.

Poster display:

All posters are available online during the entire time of the conference and will be displayed here:

Trieste hub: <https://indico.ictp.it/event/10212>

Pune hub: <https://icrc-cordex2023.tropmet.res.in/poster-display.php>

We hope you will enjoy the ICRC-CORDEX 2023 and we are looking forward to your contribution!
