

## **Session report: Insight from session B**

**Day and time: 2023-09-28, 12:30-13:30**

**Chairs: Daniela Jacob and Silvina Solman**

**Rapporteurs: Rodric Merime Nonki and Misnawati**

### **Summary**

The Insight from session B was a plenary discussion carried out to summarize the community efforts around the CORDEX interaction with society and to identify challenges and recommended ways forward to strengthen the links between science and society. The main topics discussed focused on the co-production process for producing climate information for decision making and on the need to engage with the climate service community. The discussion raised the need to get more in depth engagement with stakeholders and decision makers to co-produce climate information.
